

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes Catarrh. Repeated attacks of indigestion inflame the mucous membrane lining the stomach, and cause the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membrane lining the stomach, protects the nerves, and cures bad breath, sour eructs, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

OF THE CITY AND COUNTY
From Wednesday's Daily.

H. J. Allen came over from Jerome last night.

Mr. and Mrs. Geo. M. Gage, of Tempe, came up to Prescott this morning for a few days' visit with their daughter, Mrs. Robert Burnister, and other friends.

Make your arrangements to go on the Crown King excursion next Sunday. The train will leave Prescott at 9 a. m. and return to Prescott between 1 and 5 p. m. The fare will only be \$1.50 and the trip will be a revelation to you in railroad building in the mountains.

The many friends of Rev. Leon O. Lewis will be glad to know that he is still an Arizonian. At the recent session of the Los Angeles conference he was appointed pastor of the church at Nogales, Arizona, at which place communication will now reach him.

J. N. Stone, a prominent stock man of Coconino county, has been spending a couple of days in Prescott, left for his home in Ash Fork this morning. He says the stock men in the northern part of the territory have nothing to complain of for this time of the year, as stock is in splendid condition.

Harry Campbell has been quite sick at Jerome Junction for several days threatened with pneumonia, and he telephoned this morning that he wanted to see his mother, Mrs. Dan Campbell, who went up on the 11 train to be at his bedside. He is reported to be in a pretty serious condition.

The Journal-Miner is in receipt of a communication addressed to the grand jury relative to the shooting scrape in this city a day or two ago, which contains some very good, wholesome advice, but the writer fails to sign his or her name to the communication and for this reason it will be withheld until the writer's identity is known.

The B. B. Co. is becoming noted for its fancy windows of late, many of the decorations being very novel and handsome. This institution is never behind the times in any line and the variety of window displays only give a faint idea of the enormous stock of goods that is carried. The firm receives and ships out an average of a car load of goods every day in the year and every month their business increases.

Henry Gorman, who has been sick at the hospital for several weeks, has been admitted to the soldiers' home at Santa Monica, California, and left for that place this morning. He has some very good looking mining property in the Copper Basin country but on account of having been so poorly in health has not been able to do very much with them the past year. He hopes to soon recover sufficiently to return to this county and continue work on his claims.

The Journal-Miner is in receipt of one of the finest prospectuses that has ever come to its table, being a prospect for the Great Peak mine which Henry B. Clifford & Co. are now promoting. As a work of the printer's art it is at the head of the list, and as a history of the mine it is very complete and contains a vast amount of information concerning one of the most famous properties in this territory. The book also contains some very strong endorsements of the Great Peak mine by many of our best business men, some of whom have been in this section for many years and are personally acquainted with the history of its production of millions of dollars in the past.

Edmund Crone and Miss Elsie Spence were united in marriage last evening at the home of the groom's mother, on north Marion street, the ceremony being performed by Rev. Taft in the presence of several relatives and friends. After the ceremony had been extended the bride was invited to partake of a nice wedding supper. The groom is an employee of the S. F. & P. and has the reputation of being a sober and industrious young man. The bride has lived for a number of years with her parents at Palace station in this county, and is a sister of Deputy Sheriff Tommy Thompson's son. The young people will make their home for the present with the groom's mother in this city.

The government rested late yesterday afternoon in the case of the United States against former Surveyor General Hugh H. Price and the defense moved to dismiss on the ground that there was a variance between the proof and the allegations of the indictment. The motion is still under argument which will be resumed this morning. There was nothing sensational in the testimony brought out yesterday. No effort was made on the part of the government to show that the money which the defendants, Mr. Price and Mr. Murray, had received from Mrs. Miller for advancing her work in the office of the surveyor general beyond that of work previously entered, had been retained in whole or in part by them. Neither was the question as to whether the work had been done out of office hours, raised. The prosecution confined itself to showing that the defendants had exacted money from Mrs. Miller beyond the legal degree. Mrs. Miller testified to the fact of having paid or having sent to Mr. Murray a draft or certificate of deposit for \$100, according to an arrangement by which her work would not have to await its turn in regular office hours.—Republican.

The county officials turned him over to the government officials but it was found guilty of the offense and will be sentenced next Monday.

The Arizona State Stone Brick company is meeting with fine success in the new enterprise in this city. Their plant is supplying the quantity claimed for it, they having turned out as much as 20,000 bricks in one day. While these bricks are superior to the old fashioned burnt mud bricks, it is claimed they can be produced at a less cost, and in fact they are being placed in the wall in buildings in this city now for less than the other brick. The enterprise is a most worthy one and its success is very gratifying to all.

The arrival of the cavalry boys at Whipple has had the effect of arousing the base ball fever and a game of that exciting sport has been arranged for, to be played at the ball grounds west of Prescott next Sunday afternoon. The cavalry boys have secured a Whipple team's reputation as ball tossers and they had no occasion to be bashful in the Whipple team for a game, and the Whipples being of an accommodating nature at once promised the new arrivals to give them the best they had, so a lively game may be expected next Sunday.

RICH ORE VEIN JUST DISCOVERED

In the Corona Consolidated Property.

Twenty-Inch Vein of Free Milling Gold Ore Uncovered That Assays \$47 Per Ton.

W. F. Grove, superintendent of the Corona Consolidated Gold and Copper Mining company's property, came into Prescott a day or two ago in high spirits to report to the officers and stockholders of the company a new find he has just made on the Silver Bill claim belonging to the company.

Mr. Grove was seen by a Journal-Miner man and the particulars of the new strike were given about as follows:

He said he had been told several times that the old prospectors who had worked on that property years ago had gathered up the float in the neighborhood of the Silver Bill claim and had worked it in an old anartha and had extracted a few ounces of gold from it, but he had never taken much stock in the story until a few days ago. Then Thos. Roach happened to be passing by the property and he told Mr. Grove that it was a fact, so he thought he would investigate the matter a little and see if he could find a good vein. He was so overjoyed with the find that he had never taken much stock in the story until a few days ago. Then Thos. Roach happened to be passing by the property and he told Mr. Grove that it was a fact, so he thought he would investigate the matter a little and see if he could find a good vein.
